The Care of the Baby's Skin

The notable soothing and healing properties of VELOGEN make it of unique value in the care of the baby's tender skin.

Applied liberally after the baby's bath, it allays irritations, and effectually prevents chafing, scalds, diaper rash, and the all too common skin discomforts of babyhood.

Thus in countless homes, hospitals and institutions VELOGEN has become a nursery essential.

CHRISTMAS GREETINGS!

Because the spirit of Christmas is founded on the fact that the most universal principle of life is the kinship of humanity, this thought causes the business world to pause and take inventory of the moral and spiritual values both social and commercial.

On Christmas Day we focus this spirit of Brotherhood; petty differences vanish and a common ground of fraternity and fellowship touches our lives with broader values, and the urge of service.

This season, too, affords an opportunity to emphasize these spiritual factors. Service, courtesy, and good will are each given their place and the warm personal touch of brotherhood invests us with a broader life.

In this spirit we join with you in the heartiest Holiday Greetings and look forward with you to a continuance of those happy relations which have made our business contact such a real pleasure.

"ELIMINATION OF WASTE *is definitely increased by the ingestion of raw yeast*"

A double series of tests, recently conducted to determine the laxative effect of Yeast, has revealed some surprising facts.

The subjects were isolated over a period of weeks, and fed according to a rigidly regulated scheme of diet. Examination of the bulk, moisture, and chemical constituents of the feces was made from day to day. The findings showed that adding Fleischmann's Yeast to the diet in quantity of two to three cakes per day produced the following results:

A definite increase in the elimination of waste by the bowel.

Increase both in the bulk of the feces and in their moisture content.

A laxative effect more marked with the ordinarily consti-

pated subjects than with the normal ones—indicating that yeast acts as a bowel regulator rather than a cathartic.

Further research work on both animal and human subjects is now under way. The Fleischmann Company is sponsoring these important investigations, and is anxious to give the full results to the medical profession as soon as possible after they are complete.

A new authoritative book: written by a physician for physicians. This brochure discusses the manufacture, physiology, chemistry, and therapy of yeast. A copy will be sent you free upon request. Please use coupon, addressing THE FLEISCHMANN COMPANY, Dept. L-12, 701 Washington Street, New York, N. Y.

Saunders' Nursing Books

Pope's Materia Medica for Nurses

NEW
WORK

Miss Pope has covered the entire field. As a text-book her new work is destined to take its place in the front rank. In addition to materia medica, the book contains pharmacology and therapeutics from the nurse's point of view. The book is based on the five fundamentals—dosage; symptoms of overdosing and remedies; therapeutic uses of drugs; knowledge of solutions; and origin of drugs.

12mo of 422 pages. By AMY E. POPE, Graduate of the School of Nursing, Presbyterian Hospital, New York. Cloth, \$2.50 net

Brainard's Public Health Nursing

JUST
READY

Miss Brainard's new work on the evolution of public health nursing traces the development of this important branch from its earliest beginnings down through the centuries, through its struggles and triumphs, to its present-day organization. Special emphasis is placed on the accomplishments of the past fifty years. No one is better fitted than Miss Brainard to write on this subject.

By ANNIE M. BRAINARD, Lecturer on Administration of Public Health Nursing in Western Reserve University. 12mo of 450 pages, illustrated. Cloth, \$3.00 net

De Lee's Obstetrics for Nurses

JUST OUT
New (6th) Edition

This new (6th) edition has been issued after a most thorough revision—so thorough that the book had to be completely reset. This book has for years (through 33 printings) been the accepted text-book in leading training schools. "A Course of Study" in twelve lessons gives the work particular importance as a classroom text.

12mo of 525 pages, with 246 illustrations. By JOSEPH B. DELEE, M.D., Northwestern University Medical School, Chicago. Cloth, \$3.00 net

Bulkley's Nurses' Manual of the Skin

RECENTLY
ISSUED

This book provides for nurses a simple and concise presentation of the skin in health and in disease. There are two chapters of particular value to the nurse—"Diet and Hygiene" and "The Nurse and Diseases of the Skin." The work is really an encyclopedia on its subject for the nurse. Both the scientific and popular names of diseases are given.

12mo of 179 pages, illustrated. By L. DUNCAN BULKLEY, M.D., Senior Physician to the New York Skin and Cancer Hospital. Cloth, \$2.25 net

McMillan's Massage and Exercise

NEW
WORK

The methods given are those capable of application in civil and industrial practice. Their use after the acute infections and in the after-treatment of fractures and nerve injuries are placed on an entirely new plane. The book discusses the four branches of physical therapeutics—massage, therapeutic exercise, electrotherapy and hydrotherapy.

12mo of 274 pages, illustrated. By MARY McMILLAN, Supervisor of Aides in Physiotherapy, Medical Corps, U. S. A., 1919-1920. Cloth, \$2.25 net

For Your Comfort and Your Patients' Comfort

Frostilla users claim remarkable results where it is used on superficial burns, or treatment of poison ivy, etc., but we make no claims for Frostilla Fragrant Lotion as a medicinal preparation. We do suggest it to you, a nurse, as a means of quickly producing greater comfort for yourself and your patients.

After long hours of duty your skin is drawn and tired. Give it a gentle massage with Frostilla Fragrant Lotion. Relaxation comes almost immediately, the nerves and muscles are quickly freshened. Its delightful fragrance, a combination of the perfumes of many rare flowers, appeals to all.

Frostilla Fragrant Lotion is a cooling, soothing massage for feverish patients. Applied to the skin and lips it brings quick comfort and induces rest. It is excellent for the tender skin of babies, preventing chafing and other skin discomforts. Many hospitals use Frostilla Fragrant Lotion, having tried and proven its merits in bringing comfort and greater ease to patients. Its dainty fragrance freshens the user wonderfully.

To keep your own skin charming in the face of winter conditions you will find that Frostilla Fragrant Lotion for chapped hands that come from winter weather and the nature of your work as a nurse, is incomparable. It will keep your face free from the effects of the wintry blasts and applied and massaged into the skin will greatly improve the complexion and take away that tired, used-up feeling so often experienced in handling serious cases. Used regularly your skin will keep soft, smooth and white. As a base for face powder it has no equal.

Frostilla Fragrant Lotion is for sale everywhere in the United States and Canada—regular price 35c. The Frostilla Company, Elmira, N. Y. Established 1873.

“---as long as I live”

THERE are few things about which we may say, “This will last as long as I live.”

Among those few things is the Sedgwick Hand Power Invalid Elevator.

Because we are building with the finest materials obtainable, guided by more than a quarter century's experience, we are able to produce an Invalid Elevator that endures as long as its owner has use for it.

It is also noteworthy that Sedgwick outfits require little or no attention, and often need no repairs or renewals during the entire life of the outfit.

Surely this is the sort of elevator which you can most conscientiously recommend to your patient.

Sedgwick Invalid Elevators

Built in rigid accord with the theory that the best is none too good, and is not only cheapest in the end but the most satisfactory always. During 30 years SEDGWICK has stood for superiority of design, material and workmanship in Hand Power Dumbwaiters and Elevators. Your patient will appreciate the considerate spirit that prompts you to tell him about Sedgwick Invalid Elevators.

One of Baby's Best Friends

THE causes of infant chafing are many and the results are always annoying—to the infant and those who are caring for it. You can't blame the little ones for getting fretful and restless when their tender skin is irritated.

“Vaseline” Oxide of Zinc Ointment is recommended highly by the medical profession for chafing. It is a pure, simple remedy—not only soothing but healing as well.

Always have a tube or jar of it in your kit or cabinet and advise the use of it in the homes you visit. Your druggist carries it.

HEMORRHOIDAL SUPPOSITORIES

Physicians tell us

That surprisingly few Mothers pass through pregnancy, confinement and convalescence, without suffering from Hemorrhoids, or lesser rectal troubles likely to develop into Hemorrhoids.

With proper treatment, at the right time, few of these cases need ever reach the stage of *necessary* operation. ANUSOL SUPPOSITORIES, prescribed by physicians of all nations, for nearly a quarter of a century, score some of their best results in the Hemorrhoids of that period.

Besides, they reduce the need of internal medication to relieve constipation.

Which means better, and more digestible Mother's milk for the Infant, and a quicker return to *normalcy* for the Mother.

*An ample trial quantity mailed
free to Nurses on request*

BAND-AID

Something
New

An Adhesive Bandage

Many nurses on private cases in the home find Band-Aid invaluable for bandaging the cuts and scratches of children. The older member of the family will use it also and they appreciate the thoughtfulness of the nurse who suggests Band-Aid to them.

After the nurse has left the case the mother continues using Band-Aid on her children's cuts and bruises.

Makes a neat dressing and is so easy to apply.

Sample sent on request.
